Privacy Impact Assessment (PIA) Summary

Public Body or Custodian: Calgary Health Region

Project Title: Alberta Perinatal Health Program

Date Submitted: January 15, 2008

Date Accepted: April 15, 2008

OIPC TRAX File: H1933

Project Summary:

The Alberta Perinatal Health Program (APHP) is delivered through a Tripartite Partnership between Capital Health, Calgary Health Region and the Alberta Medical Association. The mission of the APHP is to promote maternal health, positive birth outcomes and healthy infancy by providing provincial leadership and enhanced support to Health Regions, health professionals, AHW and other stakeholders.

The APHP operates a database on a provincial level that is used for perinatal reporting. The database is maintained by the Calgary Health Region's IT infrastructure services. The database will also be used for the following purposes:

- the collection of Provincial perinatal data to support the mandate of the APHP
- the analysis and interpretation of data to provide information to Health Regions and those providing perinatal services
- to support perinatal research
