Privacy Impact Assessment (PIA) Summary

Public Body or Custodian: Alberta Health Services

**Project Title: AHS Chinook's Implementation of Vista EasyLink™
in Laboratory Services**

Date Submitted: December 17, 2009

Date Accepted: May 4, 2010

OIPC TRAX File: H3231

Project Summary:

The EasyLink™ Informatics System is a clinical system that assists medical laboratory professionals with pre-analytic and post-analytic functions in conjunction with multiple instruments, the Laboratory Information System (LIS) and the Siemens Data Center. It combines applications to bring the best and latest technologies in connectivity, intelligent device management (IDM) and quality control.

The EasyLink™ System is a separate, yet integrated informatics product that supports Siemens analyzers through a delivery of informatics applications and connectivity features.

Basic installation is a single dedicated EasyLink™ Informatics System with one or more analyzers, one or more LIS connections and a Siemens Healthcare Diagnostics Data Centre connection.
