Date Accepted: July 23, 2010

OIPC TRAX File: H3612

Project Summary:

The CFPCN Riley Park Medical Clinic is owned and operated by the Calgary Foothills Primary Care Network (CFPCN). It was established to provide an alternative practice setting for family physicians seeking to reduce their hours and patient panel size. The clinic offers physicians the opportunity to practice in a fully equipped and staffed facility of the PCN by providing a continuum of care for patients, optimizing the use of interdisciplinary teams and increasing the capacity of primary care for the PCN's patient population.

A PIA to cover establishment of the Calgary Foothills Primary Care Network was accepted by the Office of the Information and Privacy Commissioner on December 21, 2006 (file H1282).
